

'B' PSC

ACEH PROVINCE

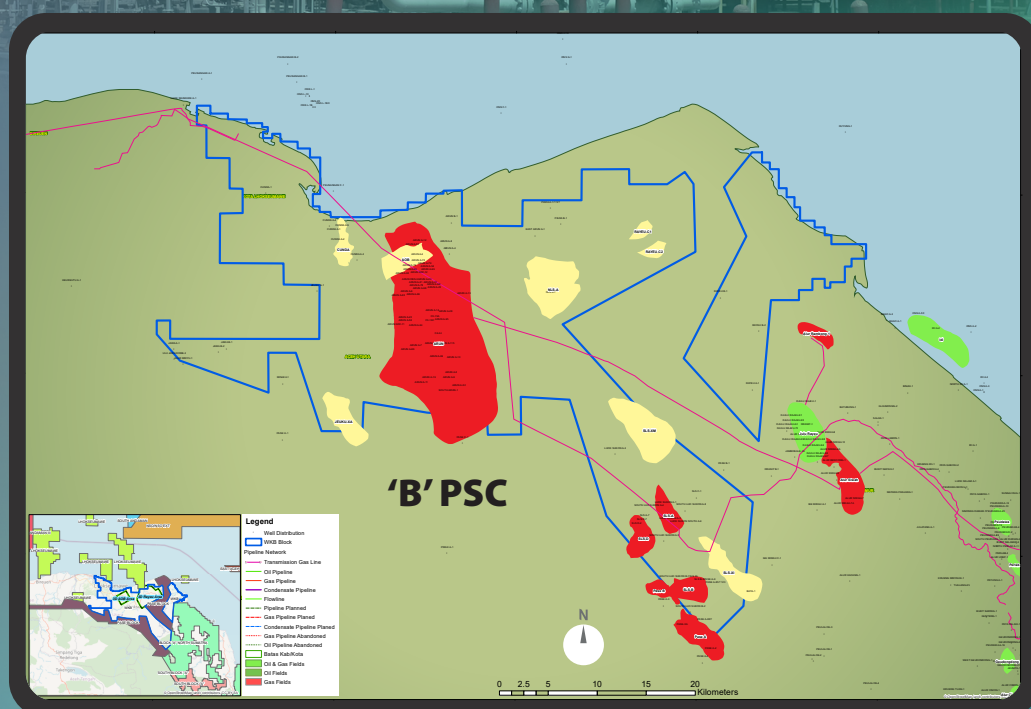

Working Interest: 43.2%

Area: 1,326.62 km²

Operator: PT PEMA Global Energi

B PSC Block is an upstream oil and gas asset located in Aceh, Indonesia, covering an operational area of 1,326.62 km². It operates under a PSC Cost Recovery scheme and is 100% managed by PT PEMA Global Energi (PGE) under a contract term from 2021 to 2041. The operator, PGE, is a consortium consisting of PT Pembangunan Aceh (45.9%), PT Pembangunan Lhokseumawe (0.9%), PT EMP Energi Aceh (43.2%), and PT Pase Energi NSB (10%). As the sole operator, PGE is responsible for exploration, development, and production activities, ensuring the block's contribution to the region's energy security and economic growth.

As of 2024, the B PSC Block has achieved gas production of 44.6 MMscfd, while condensate production reached 975.3 bcpd. Major projects in 2024 include seismic surveys, exploration drilling, and facility upgrades to enhance operational efficiency and resource recovery.

Committed to safety, environmental compliance, and social responsibility, the B PSC Block actively engages in community development programs, including education, health, and economic empowerment initiatives. With a strong operational foundation and strategic growth plans, the B PSC Block continues to play a key role in driving Aceh's energy sector forward.
